## **Laser Focused - Results in two weeks** **Jaq Bryan - The Debt Collector with Heart**

With 30+ years in the collections business, I go above and beyond to make sure your money is in your bank. Collections is a serious business, but it's fun too because I enjoy speaking with your customers. I treat them with respect and nurture the good relationships you already have with them

I offer a Short Term Collections Campaign to get those unruly debtors back into line, or Ongoing Debtor Maintenance to keep them ticking along nicely
